# Help End Malaria Deaths

700 LIGHT STREET + BALTIMORE, MARYLAND 21230 + 855.642.2019 + [LUTHERANMALARIA.ORG](http://LUTHERANMALARIA.ORG)

Dear Policy-maker,

Malaria is a preventable and treatable disease that claims the lives of nearly one million people each year.

Please join me in the fight against this devastating disease! With quality programming, the U.S. can help save lives, especially those of children and pregnant women, who are most vulnerable to the disease.

As a person of faith I have committed to help protect people from malaria as part of the Lutheran Malaria Initiative ([lutheranmalaria.org](http://lutheranmalaria.org)). Through LMI, I support the *Global Fund to Fight AIDS, Tuberculosis and Malaria*. The Global Fund is one of the best mechanisms for the U.S. to promote health and combat malaria.

I urge you to join me in the fight against malaria by supporting full funding for the Global Fund in the year ahead.

Sincerely,

*please print*
