

# Haitian Handcrafts

LWR's Handcraft partner, SERRV, works with Comité Artisanal Haïtien (CAH), an LWR Handcraft Project partner in Haiti. After the earthquake, SERRV asked CAH artisans what they needed most. Though many of their homes were destroyed, the answer was not money or tarps or food. The answer was orders for their products.

Buy their handcrafts from the LWR Handcraft Project to help these resilient and resourceful men and women earn the funds they need to get back on their feet.
