

LUTHERAN WORLD RELIEF

FARMERS MARKET COFFEE

A mission-driven venture from Lutheran World Relief

PERCOLATOR BREWING INSTRUCTIONS

- 1** With percolator on a coffee prep surface (countertop, table, etc.), open the lid and remove the brew basket.
- 2** Fill the reservoir of the brewer with filtered water to the desired level.
- 3** Reinsert brew basket and fill with the proper amount of coffee. Use ratio of 2 tablespoons of course ground coffee per 6 ounces of water (1 standard cup of coffee). Please adjust to your taste.
- 4** Close the lid and turn the percolator on, beginning the brewing cycle.
- 5** Once the brewing cycle is complete, immediately remove the brew basket with spent brewing ground.

**Note, leaving grounds still in brew basket after brew cycle is complete may result in overly bitter coffee.*
